Prescription drug coverage

How it works

STAGES 1 & 2: Deductible and Initial Coverage Stages (first \$2,850 in total drug costs)

You must first pay your plan's prescription drug deductible (Regence MedAdvantage + Rx Classic Plan has a \$235 deductible), then you enter the Initial Coverage Stage. The Initial Coverage Stage is when you share costs with the plan in the form of copays or coinsurance. You will stay in the Initial Coverage Stage until the total that you and the plan pay reaches \$2,850. See previous page for copays and coinsurance.

After your yearly prescription drug costs reach \$2,850 (includes your deductible if you choose the Regence MedAdvantage + Rx Classic Plan), you enter the Coverage Gap Stage. Most people do not reach the Coverage Gap Stage.

STAGE 3: Coverage Gap Stage (until your total true out-of-pocket costs reach \$4,550)

The Coverage Gap Stage (also known as the “donut hole”) is when you pay most of your own prescription drug costs. You pay 72% of the cost of generic prescription drugs and 47.5% of the cost of most brand-name prescription drugs until your total true out-of-pocket prescription drug costs reach \$4,550.

After your total true out-of-pocket costs (paid by you in the first three stages plus applicable manufacturer discounts in the gap) reach \$4,550, you go into the Catastrophic Coverage Stage for the remainder of the calendar year.

STAGE 4: Catastrophic Coverage Stage (everything else after \$4,550 total true out-of-pocket)

The Catastrophic Coverage Stage is when the plan pays most of your prescription drug costs. If you reach the Catastrophic Coverage Stage, the plan will pay for most of the cost of your prescription drugs for the rest of the calendar year (through December 31, 2014).

After your yearly out-of-pocket drug costs reach \$4,550, you pay the greater of 5% coinsurance or \$2.55 copay for generic drugs, and the greater of 5% coinsurance or \$6.35 copay for brand name drugs.

You have questions? *We have answers.*

Who is eligible to enroll in Regence Medicare Advantage PPO Plans?

To receive coverage under a Regence Medicare Advantage PPO Plan, you must meet the following criteria:

- ▶ You live in one of the Regence Medicare Advantage PPO service areas: Clallam, Columbia, Cowlitz, Island, King, Kitsap, Klickitat, Lewis, Pierce, San Juan, Skagit, Skamania, Snohomish, Thurston, Wahkiakum, Walla Walla, Whatcom and Yakima counties in Washington.
- ▶ You have Medicare Part A (you are 65 or older, or under 65 with certain disabilities).
- ▶ You are eligible for or have already enrolled in Medicare Part B.
 - More information about your Medicare Part A and Part B eligibility is available by calling the Social Security Office at 1-800-772-1213. TTY users should call 1-800-325-0778.
- ▶ You don't have End-Stage Renal Disease (permanent kidney disease requiring dialysis or a kidney transplant), except under certain limited circumstances.

When can I join or switch to a Regence Medicare Advantage PPO Plan?

You can enroll in a Regence Medicare Advantage PPO Plan during specific enrollment periods:

Initial Coverage Election Period (ICEP)

You can enroll when you first become eligible for Medicare (the three months before the month you turn 65, the month of your birthday, and the three months after the month you turn 65). If you get Medicare due to a disability, you can join from three months before to three months after your 25th month of cash disability payments.

October 15 – December 7, 2013 (Annual Enrollment Period)

If you are eligible for or have already enrolled in Medicare, you can enroll in or switch plans during the Annual Enrollment Period. Your coverage will take effect on January 1, 2014.

January 1 – February 14 (Medicare Advantage Disenrollment Period)

Medicare beneficiaries have the opportunity to disenroll from their Medicare Advantage program and return to Original Medicare from January 1 through February 14.

Special Election Periods (SEPs)

You can make changes to your plan when certain events happen in your life, such as a move or a loss of other insurance coverage. These limited times are called Special Election Periods (SEPs). Rules about when you can make changes and the type of changes you can make are different for each SEP. To learn more, visit the government's Medicare website at www.medicare.gov.

If I continue to work and choose not to enroll in a Medicare plan when I turn 65, will there be a late penalty when I do enroll?

In most cases, you can delay enrolling in Medicare Part B as long as you (or your spouse) are covered by group health insurance provided by an employer for whom you (or your spouse) are still working. The employer's insurance must cover doctor visits and outpatient services, and have a prescription drug program that is considered creditable by Medicare. Once you retire or leave work, you will be entitled to a special enrollment period (SEP) of up to eight months to sign up for Part B without incurring a late penalty.

There are some exceptions to this rule. If your employer has fewer than 20 employees (or fewer than 100 employees for those disabled under 65), you may be required to sign up for Part B when you turn 65. If so, Medicare would become your primary coverage and your employer coverage would pay secondary to Medicare. You should consult your employer's benefit manager for more information.

You have questions? *We have answers.* (cont.)

Do you offer any extra benefits that are not included with Original Medicare?

Regence Medicare Advantage PPO Plans offer you more coverage than Original Medicare, including a routine annual eye exam and an allowance toward the purchase of glasses, lenses and contact lenses. You are also covered for two preventive dental visits per year for cleanings and X-rays. You also have access to SilverSneakers, which includes a free fitness center membership at participating facilities or a home program available for members who don't have access to or can't access a participating location. Regence Medicare Advantage PPO members receive an annual physical exam benefit in addition to the Medicare covered Annual Wellness Visit.

Does your plan cover me when I travel in other parts of the United States?

Regence Medicare Advantage PPO Plans will cover you for medical emergencies anywhere in the world, with the exception of prescription drugs. You'll pay a copay amount specified by your plan for urgent care and hospital emergency room visits. For non-urgent or routine care that is out-of-network, you'll pay the copay or coinsurance specified by your plan. We also offer members coverage in many parts of the United States through the Blue Medicare Advantage PPO Network Sharing Program. To locate a provider, visit the Blue National Doctor & Hospital FinderSM website at <http://provider.bcbs.com> or use the free mobile application available at www.bcbs.com/mobile.

If I choose Regence MedAdvantage Basic PPO (no Rx), can I purchase a separate Part D plan from another insurance company?

No. If you enroll in the Regence MedAdvantage Basic PPO Plan, you receive medical-only

coverage. Federal regulations prohibit you from purchasing a separate Medicare Prescription Drug Plan (Part D).

What if I don't want prescription drug coverage?

If you don't want or need prescription drug coverage, choose the Regence Medicare Advantage Basic PPO Plan. Please note that if you don't have other creditable drug coverage and you don't choose a Medicare Part D prescription plan when you are eligible, there will be a penalty for every month you could have enrolled but didn't. So, if you enroll in prescription drug coverage later and can't prove that you had other, creditable prescription drug coverage, you'll pay more than most people. If you are not yet on Medicare, you will have a seven-month enrollment period for Medicare Part D without being subject to a penalty.

What is the coverage gap?

The coverage gap (also called the "donut hole") is the stage in the prescription drug benefit when, after you and the plan have spent a certain amount of money on covered prescription drugs (deductible and initial coverage periods), you'll pay 47.5% of the plan's cost for covered brand-name and 72% of the plan's cost for generic prescription drugs. You will get these savings if you buy your prescriptions at a pharmacy or order them through the mail.

The discount will come off of the price that your plan has set with the pharmacy for that specific drug. You will pay a certain percent of the price for the brand-name or generic drug. Only the amount you pay for generic or brand-name drugs, plus the brand discount from the drug company, will count toward the amount you need to qualify for catastrophic coverage. Once you reach catastrophic coverage, you only pay a small coinsurance or copayment for the rest of the calendar year.

Glossary of terms

Centers for Medicare & Medicaid Services (CMS)

The federal agency that administers Medicare.

Coinsurance

An amount you may be required to pay as your share of the cost for services or prescription drugs after you pay any deductibles. Coinsurance is usually a percentage (for example, 20%).

Copay or Copayment

An amount you may be required to pay as your share of the cost for a medical service or supply, like a doctor's visit, hospital outpatient visit, or a prescription drug. A copayment is usually a set amount rather than a percentage. For example, you might pay \$20 for a doctor's visit or prescription drug.

Coverage determination

A decision about whether a drug prescribed for you is covered by the plan and the amount, if any, you are required to pay for the prescription. In general, if you bring your prescription to a pharmacy and the pharmacy tells you the prescription isn't covered under your plan, that isn't a coverage determination. You need to call or write to your plan to ask for a formal decision about the coverage.

Coverage gap (Medicare prescription drug coverage)

A period of time in which you pay higher cost-sharing for prescription drugs until you spend enough to qualify for catastrophic coverage. The coverage gap (also called the "donut hole") starts when you and your plan have paid a set

dollar amount for prescription drugs during that year.

Creditable prescription drug coverage

Prescription drug coverage (for example, from an employer or union) that is expected to pay, on average, at least as much as Medicare's standard prescription drug coverage. People who have this kind of coverage when they become eligible for Medicare can generally keep that coverage without paying a penalty if they decide to enroll in Medicare prescription drug coverage later.

Deductible

The amount you must pay for health care or prescriptions before our plan begins to pay.

Durable medical equipment (DME)

Certain medical equipment that is ordered by your doctor for medical reasons. Examples are walkers, wheelchairs or hospital beds.

Exclusions

Health plans do not cover all health care services. Exclusions are those services not covered by, or excluded from, the health plan.

Generic drug

A prescription drug that is approved by the Food and Drug Administration (FDA) as having the same active ingredient(s) as the brand name drug. Generally, a generic drug works the same as a brand name drug and usually costs less.

Lifetime reserve days

In Original Medicare, these are additional days that Medicare

will pay for when you are in a hospital for more than 90 days. You have a total of 60 reserve days that can be used during your lifetime. For each lifetime reserve day, Medicare pays all covered costs except for a daily coinsurance.

List of covered drugs (formulary or "drug list")

A list of prescription drugs covered by the plan. The drugs on this list are selected by the plan with the help of doctors and pharmacists. The list includes both brand name and generic drugs.

Long-term care

A variety of services that include medical and non-medical care to people who have a chronic illness or disability. Generally, Medicare doesn't pay for long-term care. Medicare pays only for medically necessary, skilled nursing facility or home health care. However, you must meet certain conditions for Medicare to pay for these types of care. Long-term care can be provided at home, in the community, in assisted living facilities or in nursing homes.

Medicare Advantage (MA) Plan

Sometimes called Medicare Part C. A plan offered by a private company that contracts with Medicare to provide you with all your Medicare Part A and Part B benefits. A Medicare Advantage Plan can be an HMO, PPO, a Private Fee-for-Service (PFFS) Plan, or a Medicare Medical Savings Account (MSA) Plan. When you are enrolled in a Medicare Advantage Plan, Medicare services are covered through

Glossary of terms (cont.)

the plan, and are not paid for under Original Medicare. In most cases, Medicare Advantage Plans also offer Medicare Part D (prescription drug coverage).

Medicare Prescription Drug Plan (Part D)

A stand-alone drug plan that adds prescription drug coverage to Original Medicare, some Medicare Cost Plans, some Medicare Private-Fee-for-Service Plans and Medicare Medical Savings Account Plans. These plans are offered by insurance companies and other private companies approved by Medicare. Medicare Advantage Plans may also offer prescription drug coverage that follows the same rules as Medicare Prescription Drug Plans.

Original Medicare (“Traditional Medicare” or “Fee-for-service” Medicare)

Original Medicare is offered by the government, and not a private health plan such as Medicare Advantage Plans and Prescription Drug Plans. Under Original Medicare, Medicare services are covered by paying doctors, hospitals, and other health care providers payment amounts established by Congress. You can see any doctor, hospital or other health care provider that accepts Medicare. You must pay the deductible. Medicare pays its

share of the Medicare-approved amount, and you pay your share. Original Medicare has two parts—Part A (Hospital Insurance) and Part B (Medical Insurance)—and is available everywhere in the United States.

Out-of-network provider or Out-of-network facility

A provider or facility with which we have not arranged to coordinate or provide covered services to members of our plan. Out-of-network providers are providers that are not employed, owned or operated by our plan, or are not under contract to deliver covered services to you.

Out-of-pocket costs

A member’s cost-sharing requirement to pay for a portion of services or drugs received is also referred to as the member’s “out-of-pocket” cost requirement.

Preferred Provider Organization (PPO) Plan

A Preferred Provider Organization Plan is a Medicare Advantage Plan that has a network of contracted providers who have agreed to treat plan members for a specified payment amount. A PPO Plan must cover all plan benefits whether they are received from network or out-of-network providers. Member cost-sharing will generally be higher when plan benefits are received from

out-of-network providers. PPO Plans have an annual limit on your out-of-pocket costs for services received from network (preferred) providers and a higher limit on your total combined out-of-pocket costs for services from both in-network (preferred) and out-of-network (non-preferred) providers.

Preventive services

Health care to prevent illness or detect illness at an early stage, when treatment is likely to work best (for example, preventive services include Pap tests, flu shots and screening mammograms).

Primary care doctor

The doctor you see first for most health problems. He or she makes sure you get the care you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them.

Skilled nursing facility (SNF) care

Skilled nursing care and rehabilitation services provided on a continuous, daily basis in a skilled nursing facility. Examples of skilled nursing facility care include physical therapy or intravenous injections that can only be given by a registered nurse or doctor.
